1 Aims

- 1.1 This is the online safety policy of Abbey College Cambridge.
- 1.2 The aim of this policy is to promote and safeguard the welfare of all students through the implementation of an effective online safety strategy which:
 - 1.2.1 protects the whole College community from illegal, inappropriate and harmful content or contact;
 - 1.2.2 establishes effective mechanisms to identify, intervene and escalate incidents where appropriate; and
 - 1.2.3 promotes a whole College culture of safety, equality and protection.
 - 1.2.4 Our school aims to:
 - 1.2.5 Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors
 - 1.2.6 Identify and support groups of pupils that are potentially at greater risk of harm online than others
 - 1.2.7 Deliver an effective approach to online safety, which empowers the college to protect and educate the whole school community in its use of technology, including mobile and smart technology (which we refer to as 'mobile phones')
 - 1.2.8 Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate
- 1.3 This policy forms part of a whole College approach to promoting child safeguarding and wellbeing, which seeks to ensure that the best interests of students underpins and is at the heart of all decisions, systems, processes and policies.
- 1.4 Online safety is a running and interrelated theme throughout many of the College's policies and procedures (including its child protection and safeguarding policy and procedures) and careful consideration has been given to ensure that it is also reflected in the College's curriculum, teacher training and any parental engagement, as well as the role and responsibility of the College's Designated Safeguarding Lead.

2 Scope and application

- 2.1 This policy applies to the whole College.
- 2.2 This policy applies to all members of the College community, including staff and volunteers, students, parents and visitors, who have access to the College's technology whether on or off College premises, or otherwise use technology in a way which affects the welfare of other students or any member of the College community or where the culture or reputation of the College is put at risk.

3 Regulatory framework

- 3.1 This policy has been prepared to meet the College's responsibilities under:

- 3.1.1 Education (Independent College Standards) Regulations 2014;
 - 3.1.2 Boarding Colleges: national minimum standards (Department for Education (**DfE**), Effective 5 September 2022;
 - 3.1.3 Education and Skills Act 2008;
 - 3.1.4 Children Act 1989;
 - 3.1.5 Childcare Act 2006;
 - 3.1.6 Data Protection Act 2018 and UK General Data Protection Regulation (**UK GDPR**); and
 - 3.1.7 Equality Act 2010.
 - 3.1.8 Online Safety Act 2026
- 3.2 This policy has regard to the following guidance and advice:
- 3.2.1 [Keeping children safe in education](#) (DfE, Effective 1 September 2026 (**KCSIE**);
 - 3.2.2 [Preventing and tackling bullying](#) (DfE, July 2017);
 - 3.2.3 [Sharing nudes and semi-nudes: how to respond to an incident \(overview\)](#) (DfDCMS and UKCIS, 2024);

[Sharing nudes and semi-nudes: advice for education settings working with children and young people - GOV.UK \(www.gov.uk\)](#) (DfDCMS and UKCIS, December 2024) ;
 - 3.2.4 [Revised Prevent duty guidance: for England and Wales](#) (Home Office, April 2024);
 - 3.2.5 [Channel duty guidance: protecting vulnerable people from being drawn into terrorism](#) (Home Office, 2025);
 - 3.2.6 [Sexual violence and sexual harassment between children in Colleges and colleges](#) (DfE, September 2021);
 - 3.2.7 [Searching, screening and confiscation: advice for Colleges](#) (DfE, 2023);
 - 3.2.8 [Relationships Education, Relationships and Sex Education \(RSE\) and Health Education guidance](#) (DfE, September 2021);
 - 3.2.9 [Teaching online safety in Colleges](#) (DfE, January 2023);
 - 3.2.10 [Harmful online challenges and online hoaxes](#) (DfE, February 2021);
 - 3.2.11 [Online safety guidance if you own or manage an online platform](#) (DfDCMS, June 2021);
 - 3.2.12 [A business guide for protecting children on your online platform](#) (DfDCMS, June 2021);
 - 3.2.13 [Online safety audit tool](#) (UKCIS, October 2022).
 - 3.2.14 [Relationships and sex education \(RSE\) and health education - GOV.UK](#)
 - 3.2.15 [Searching, screening and confiscation in schools - GOV.UK](#)

3.3 The following College policies, procedures and resource materials are relevant to this policy:

- 3.3.1 acceptable use policy for students;
- 3.3.2 staff IT acceptable use policy and social media policies;
- 3.3.3 safeguarding policy and procedures, including guidance on child-on-child abuse;
- 3.3.4 anti-bullying policy;
- 3.3.5 behaviour policy
- 3.3.6 risk assessment policy;
- 3.3.7 staff code of conduct and whistleblowing policies;
- 3.3.8 data protection policy;
- 3.3.9 use of mobile phones and electronic devices policies;
- 3.3.10 Relationships and sex education policy.

4 **Publication and availability**

- 4.1 This policy is published on the College website.
- 4.2 This policy is available in hard copy on request. It can be made available in large print or other accessible format if required.

5 **Definitions**

- 5.1 In considering the scope of the College's online safety strategy, the College will take a wide and purposive approach to considering what falls within the meaning of technology, networks and devices used for viewing or exchanging information (collectively referred to in this policy as **technology**).

6 **Responsibility statement and allocation of tasks**

- 6.1 Abbey DLD Colleges has overall responsibility for all matters which are the subject of this policy. It ensures that all those with leadership and management responsibilities at the College actively promote the well-being of students.
- 6.2 The Designated Safeguarding Lead (**DSL**; see cover page for contact details) has primary responsibility for the implementation and maintenance of this policy at College level. The policy is updated as required and formally reviewed on an annual basis.
- 6.3 Online safety incidents are reviewed as part of an ongoing cycle of governance visits, and as part of an annual safeguarding review conducted by the Nominated Safeguarding Governor and DSL. Governors regularly review the effectiveness of college filters and monitoring systems in governance visits. Staff online safety and safeguarding and child protection training ensures they have an understanding of the expectations, roles and responsibilities around the setting's filtering and monitoring system. The Governors have reviewed the DfE's [Filtering and Monitoring Standards](#) and have discussed its content with the IT department to ensure standards are met. The Governors also consider the age, number of students and those who are potentially at a greater risk of harm, when limiting children and young people's exposure to risk.

- 6.4 Taking into account the multi-dimensional aspects of online safety, specific responsibilities are assigned to specific individuals based on their skills and experience, as set out below:

Aspect of online safety	Designated person
ICT Coordinator	Stephanie Stafford
On-site Engineer ¹	Simon Tee
Curriculum – ICT Coordinator	Andrew Humphris
Curriculum - PSHEE	Carolyn Dunn
Staff Training & CPD	Carolyn Dunn/Andy Humphris/Stephanie Stafford/ Alison Bignell
Development of Parental Awareness	Carolyn Dunn

7 Role of staff and parents

7.1 Head and Senior Leadership Team

- 7.1.1 The Head has overall executive responsibility for the safety and welfare of members of the College community.
- 7.1.2 The DSL is the senior member of staff from the College's leadership team with lead responsibility for safeguarding and child protection, including online safety. The responsibility of the DSL includes managing safeguarding incidents involving the use of technology in the same way as other safeguarding matters, in accordance with the College's child protection and safeguarding policy and procedures.
- 7.1.3 The DSL will work with the College's On-Site Engineer and ICT Coordinator (see below) in monitoring technology uses and practices across the College and assessing whether any improvements can be made to ensure the online safety and well-being of students.
- 7.1.4 The DSL will monitor the College's online safety incident log.
- 7.1.5 The DSL, who leads on online safety and has a lead responsibility in understanding the filtering and monitoring systems (which is explicit in the job description), will regularly run reports using the filtering software to identify risk alerts and concerns.
- 7.1.6 The DSL will regularly update other members of the College's Senior Leadership Team on the operation of the College's safeguarding arrangements, including online safety practices.

¹ The on-site engineer must sign the annual affirmation statement as required by the Code of Ethical & Professional Conduct (available on the Portal).

7.2 Abbey DLD Colleges Director of IT and IT Team

- 7.2.1 Abbey DLD Colleges' Director of IT, together with his team of On-Site Engineers, is responsible for the effective operation of the College's filtering system so that students and staff are unable to access any material that poses a safeguarding risk, including terrorist and extremist material, while using the College's network. This includes responsibility for ensuring that:
- (a) the College's technology infrastructure is secure and, so far as is possible, is not open to misuse or malicious attack;
 - (b) the user may only use the College's technology if they are properly authenticated and authorised;
 - (c) the College has an effective filtering policy in place and that it is applied and updated on a regular basis;
 - (d) the risks of students and staff circumventing the safeguards put in place by the College are minimised;
 - (e) the use of the College's technology is regularly monitored to ensure compliance with this policy and that any misuse or attempted misuse can be identified and reported to the appropriate person for investigation; and
 - (f) monitoring software and systems are kept up to date to allow the ICT team to monitor the use of email and the internet over the College's network and maintain logs of such usage.
- 7.2.2 Whilst the above responsibilities sit with the Abbey DLD Colleges Director of IT and are administered by the College's On-Site Engineer, it is essential that a member of staff is nominated as ICT Coordinator and is assigned responsibility for monitoring the effective delivery of technology services on behalf of all college users, and for reporting problems where necessary. The ICT Co-ordinator may also be responsible for the ICT curriculum, but it is important that these two responsibilities are clearly understood as separate functions.
- 7.2.3 The ICT Coordinator will report regularly to the Senior Leadership Team on the operation of the College's technology. If the ICT Coordinator has concerns about the functionality, effectiveness, suitability or use of technology within the College, including of the monitoring and filtering systems in place, they will escalate those concerns promptly to the DSL and Abbey DLD Colleges' Head Office IT team.
- 7.2.4 The ICT Coordinator is responsible for bringing any matters of safeguarding concern to the attention of the DSL in accordance with the College's child protection and safeguarding policy and procedures.

7.3 All staff

- 7.3.1 All staff have a responsibility to act as good role models in their use of technology and to share their knowledge of the College's policies and of safe practice with the students.
- 7.3.2 Staff are expected to adhere, so far as applicable, to each of the policies referenced in this policy.

- 7.3.3 All staff are aware that technology can play a significant part in many safeguarding and wellbeing issues and that students are at risk of abuse online as well as face-to-face, inside and outside of College/college. Staff are also aware that, sometimes, such abuse will take place concurrently online and during a student's daily life. All staff understand the risk of harm and indicators of abuse and neglect.

All staff are aware that children can abuse other children at any age (child-on-child abuse) and this can happen both inside and outside of College and online. Staff are expected to be alert to this possibility online (technology is a significant component in safeguarding and well-being issues) and are aware of the policies and procedures in place and the role they hold in preventing and responding to a child who is believed to be at risk. Examples of such abuse can include:

- (a) the sending of abusive, harassing and misogynistic messages;
- (b) the consensual and non-consensual sharing of indecent images and videos (especially around group chats), which is sometimes known as sexting or youth produced sexual imagery;
- (c) the sharing of abusive images and pornography to those who do not wish to receive such content;
- (d) cyberbullying.

- 7.3.4 Staff are also aware that many other forms of abuse may include an online element. For instance, there may be an online element which:

- (a) facilitates, threatens and/or encourages physical abuse;
- (b) facilitates, threatens and/or encourages sexual abuse/violence and sexual harassment;
- (c) is used as part of initiation/hazing type violence and rituals; or
- (d) Abuse (including sexual) can also be wholly online and/or technology facilitates offline abuse.

- 7.3.5 It is important that staff recognise the indicators and signs of child-on-child abuse, including where such abuse takes place online, and that they know how to identify it and respond to reports. Staff must also understand that, even if there are no reports of child-on-child abuse at the College, whether online or otherwise, it does not mean that it is not happening; it may simply be the case that it is not being reported.

- 7.3.6 It is important that staff challenge inappropriate behaviours between peers and do not downplay certain behaviours, including sexual violence and sexual harassment, as "*just banter*", "*just having a laugh*", "*part of growing up*" or "*boys being boys*" as doing so can result in a culture of unacceptable behaviours, an unsafe environment for children and, in a worst case scenario, a culture that normalises abuse. The College has a **zero tolerance approach** towards child-on-child abuse (including in relation to sexual violence and sexual harassment) and such behaviour is never acceptable and will not be tolerated. The College will treat any such incidences as a breach of discipline and will deal with them under the College's behaviour and discipline policy and also as a safeguarding matter under the College's child protection and safeguarding policy and procedures.

- 7.3.7 Staff are aware of and have an understanding of the systems in place and know how to escalate concerns. They have a responsibility to report any concerns about a student's welfare and safety in accordance with this policy and the College's child protection and safeguarding policy and procedures. If staff have any concerns regarding child-on-child abuse or if they are unsure as to how to proceed in relation to a particular incident, they should **always speak to the DSL in all cases (see contact details on cover page)**.
- 7.3.8 Staff authorised by the Principal have the right to search for, examine and confiscate any device where they reasonably suspect that the data or file on the device in question has been, or could be, used to cause harm, to disrupt teaching or break the College rules. This will be done in accordance with the Department for Education's guidance: [Searching, screening and confiscation](#) (2018). Inappropriate usage will be dealt with consistent with the College's policy on behaviour and discipline. Following an examination of an electronic device, the member of staff has the right to erase any data or files, if they think there is a good reason to do so. However, care should be taken not to delete material that might be required in a potential criminal investigation. If a member of staff has reasonable grounds to suspect that a device contains evidence in relation to an offence, they must alert the Principal and, where there are safeguarding concerns, the DSL. The device should then be given to police as soon as is reasonably practicable.
- 7.3.9 A conviction (e.g. harassment), has the possibility to generate interest among students in college (even with legal anonymity reporting restrictions). It is important that the victim and perpetrator(s) are protected by the college, especially from harassment or bullying (online included). Social media is likely to play a key role following an incident/alleged incident. The victim and alleged perpetrator(s) can be in contact, as well as friends from both sides who could harass the students online and/or become victims of harassment themselves.

7.4 Parents

- 7.4.1 The role of parents in ensuring that students understand how to stay safe when using technology is crucial. The College expects parents to promote safe practice when using technology and to:
- (a) support the College in the implementation of this policy and report any concerns in line with the College's policies and procedures;
 - (b) talk to their child to understand the ways in which they are using the internet, social media and their mobile devices and promote responsible behaviour; and
 - (c) encourage their child to speak to someone if they are being bullied or otherwise are concerned about their own safety or that of another student or need support.
- 7.4.2 Parents are encourage to contact the DSL if they have any concerns or require any information about online safety.

8 Technological controls

- 8.1 We maintain specific controls which enable us to establish a secure data and communications environment and to monitor children's digital activity within the boundaries of the College.
- 8.2 Children to whom we provide bespoke² access to ICT resources are asked to agree in writing to a set of rules for the acceptable use of such resources (see ICT Usage policy).
- 8.3 Our password-controlled network maintains individual security, confidentiality and accountability for activity on the network. Any student or member of staff who has a problem with their user names or passwords must report it to the College's ICT team immediately.
- 8.4 The College uses well-established and frequently updated filtering software to prevent access to content deemed to be potentially harmful, and which records attempts to access such potentially harmful content. If staff or children discover unsuitable sites, the URL (web address) must be reported to the ICT Coordinator. Any member of the College community should report a website which causes concern to the ICT Coordinator who will immediately refer this to the On-Site Engineer who will arrange for that site to be blocked, always taking care to consider that potential 'over-blocking' does not lead to unreasonable restrictions in online learning.
- 8.5 The use of any device connected to the College's network will be logged and monitored by the ICT team.
- 8.6 The College has a separate Wi-Fi connection available for use by visitors to the College. A password, which is changed on a regular basis, must be obtained from a member of staff in order to use the Wi-Fi. Use of this service will be logged and monitored by the ICT team.
- 8.7 **Inappropriate material**
- 8.7.1 The College recognises the importance of ensuring that all students are safeguarded from potentially harmful and inappropriate material online.
- 8.7.2 Online safety is a key element of many College policies and procedures and an important part of the role and responsibilities of the DSL. The term 'online safety' encapsulates a wide range of issues but these can be classified into four main areas of risk
- (a) **Content** - being exposed to illegal, inappropriate, inaccurate or harmful content (e.g. pornography, extreme violence, addictive content, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation and extremism)³;
 - (b) **Contact** - being subjected to harmful online interaction with other users (e.g. peer to peer pressure, bullying, harassment, threats to privacy,

² E.g. email accounts; network ID's and accounts; unsupervised browsing

³ Online games designed for adults are often cited as one of the principle causes of concern for several of these risks. This may be as much from the highly aggressive and verbally abusive behaviours they elicit as from the be-friending of pseudonymous strangers or from exposure to violent and sexual content. Extensive exposure to such games may be considered evidence of child neglect, which may, in certain circumstances, lead the College to consider making a report to social services.

commercial advertising and adults posing as children or young adults with the intention to groom and/or exploit them for sexual, criminal, financial or other purposes);

- (c) **Conduct** - a student's personal online behaviour that increases the likelihood of, or causes, harm (e.g. making, sending and receiving explicit images/videos (such as consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying, harassment, breaching copyright; and
- (d) **Commerce** - risks such as online gambling, inappropriate advertising, phishing and or financial scams.

The College is committed to supporting awareness of these risks in age-appropriate ways and to building resilience and critical thinking skills to enable students to respond appropriately to such risks. See the table below (adapted from Tanya Byron's '3 C's of E-safety') and section 10 for further information about online safety education.

Risk category	Commercial	Aggressive	Sexual	Values
Content Child is observer/consumer	Understand and develop resilience to advertising, spam, sponsorships and demands for personal information	Develop resilience to violent/hateful content and know how to cope and to deal with it	Avoid/develop resilience to pornographic or unwelcome sexual content	Develop critical evaluation skills to Identify bias, prejudice, misleading and manipulative information and advice
Contact Child is participant	Awareness of tracking, harvesting and the protection of personal information	Develop resilience to being bullied or harassed, and know what actions to take	Understand the implications of interacting with strangers and being groomed	Develop resilience to the risk of compulsive/addictive online behaviour, and to unwelcome persuasions
Conduct Child is instigator/perpetrator	Clear guidance on illegal downloading, copying, plagiarising, hacking, gambling, fraud, identity theft and the consequences	Clear guidance on bullying, harassment or 'trolling' of others and understand the consequences	Clear guidance on creating and uploading inappropriate material and understand the consequences	Clear guidance on the value of personal integrity, respect, data security, confidentiality, and the consequences of publishing inappropriate, false or misleading information or advice
Commerce Child is participant	Understand and develop awareness of and resilience to inappropriate advertising, phishing and/or financial scams. Develop an awareness of inadvertently purchasing something.	Develop resilience to how to cope and to deal with inappropriate marketing messages.	Understand the implications of interacting with strangers and being groomed	Develop critical evaluation skills to Identify misleading and manipulative information and advice. And the risks of agreeing to terms or contracts they don't agree with or understand.

8.8 Use of mobile electronic devices and smart technology

- 8.8.1 The College has appropriate filtering and monitoring systems in place to protect students using the internet (including email text messaging and social media sites) when connected to the College's network. Mobile devices and smart technology equipped with a mobile data subscription can, however, provide students with unlimited and unrestricted access to the internet. The College is alert to the risks that such access presents, including the risk of students sexually harassing their peers using their mobile or other smart technology; or sharing indecent images consensually or non-consensually; or viewing and/or sharing pornography and other harmful content. Therefore, the College operates a clear mobile usage policy and has mechanisms in place to manage such risks.
- 8.8.2 The College operates a BYOD approach to devices for students. All access to digital online content is filtered via categories specified via the firewall software, Smoothwall.
- 8.8.3 The College rules about the use of mobile electronic devices or other smart technology, including access to open / non-College networks, are set out in ICT Usage Policy. The use of mobile electronic devices is covered in the Social Media, Mobile Phone and Devices Policy.
- 8.8.4 Unless otherwise agreed in writing, staff personal mobile devices including laptop and notebook devices should not be used for College purposes except in an emergency.
- 8.8.5 The College's policies apply to the use of technology by staff and students whether on or off College premises and appropriate action will be taken where such use affects the welfare of other students or any member of the College community or where the culture or reputation of the College is put at risk.
- 8.8.6 The College is aware of the risk of children being exploited into county line practices (increasingly targeted and recruited through social media).

9 Procedures for dealing with online safety concerns and incidents

9.1 Concerns/Incidents relating to students

- 9.1.1 **Anyone** who has **any** concern about students' online safety, the misuse of technology or a particular risk should report it immediately.
 - (a) If a concern or incident in any way touches on child safeguarding issues⁴, then it must be reported **immediately** to the DSL, consistent with the safeguarding and child protection policy.
 - (b) If the concern or incident involves cyberbullying it should be dealt with in accordance with the College's anti-bullying policy.
 - (c) If it relates to technological controls (as described above), or to a breach of the ICT Usage policy, then it must also be reported to the ICT Coordinator.

⁴ For example, it involves child-on-child abuse, sexual imagery, sexual violence and/or harassment, upskirting or radicalisation (this is not an exhaustive list, for further information see the safeguarding and child protection policy).

- (d) Other members of staff and management should be informed as appropriate in the circumstances.

9.1.2 Regarding the responsibility of Colleges/colleges to deal with online safety incidents which occur 'off-site', the Education and Inspections Act 2006 and the Education Act 2011 empower the College, to such extent as is reasonable, to:

- (a) regulate the behaviour of children when they are off the College/college site where an online safety incident is linked to the College/college
- (b) impose disciplinary penalties for inappropriate behaviour, as per the behaviour and discipline policy
- (c) search for and confiscate electronic devices, and search their contents, and where appropriate delete content (see section 7.3.9)

9.1.3 The College recognises the importance of acknowledging, understanding and not downplaying behaviours which may be related to abuse and has appropriate systems in place to ensure that students can report any incidents of abuse, whether or not they include an online element, confidently and safe in the knowledge that their concerns will be treated seriously and equally, whether online or outside of college. Children should never have the impression that they are creating a problem through reporting violence or harassment. It is key to explain that the law is in place to protect them, not criminalise them (explained without causing alarm or distress). Staff should however be careful not to promise full confidentiality as information may need to be shared further (e.g. with the DSL) to determine next steps.

9.2 Concerns/Incidents relating to staff

- 9.2.1 **Anyone** who has **any** concern about the misuse of technology by staff should report it in accordance with the College's whistleblowing policy so that it can be dealt with in accordance with the staff disciplinary procedures.
- 9.2.2 If anyone has a safeguarding-related concern relating to staff misuse of technology, they should report it **immediately** in accordance with the procedures for reporting and dealing with allegations of abuse against staff set out in the College's child protection and safeguarding policy and procedures.

9.3 Misuse by any user

- 9.3.1 **Anyone** who has **any** concern about the misuse of technology by any other user should report it immediately to the ICT Coordinator and/or the DSL as relevant.
- 9.3.2 The College reserves the right to withdraw access to the College's network by any user at any time and to report suspected illegal activity to the police.
- 9.3.3 If the College considers that any person is vulnerable to radicalisation, the College will refer this to the Channel programme. This focuses on support at an early stage to people who are identified as being vulnerable to being drawn into terrorism. Any person who has a concern relating to extremism may report it directly to the police.

9.4 Cybercrime

- 9.4.1 Cybercrime is criminal activity committed using computers and/or the internet. It is broadly categorised as either 'cyber-enabled' (crimes that can happen off-line but are enabled at scale and at speed on-line) or 'cyber dependent' (crimes that can be committed only by using a computer).
- 9.4.2 Cyber-dependent crimes include;
- (a) unauthorised access to computers (illegal 'hacking'), for example, accessing a College's computer network to look for test paper answers or change grades awarded;
 - (b) denial of service (Dos or DDoS) attacks or 'booting', which are attempts to make a computer, network or website unavailable by overwhelming it with internet traffic from multiple sources; and
 - (c) making, supplying or obtaining malware (malicious software) such as viruses, spyware, ransomware, botnets and Remote Access Trojans with the intent to commit further offence, including those above.
- 9.4.3 The College is aware that students with particular skill and interest in computing and technology may inadvertently or deliberately stray into cyber-dependent crime.
- 9.4.4 If staff have any concerns about a child in this area, they should refer the matter to the DSL immediately. The DSL should then consider referring into the Cyber Choices programme. This is a nationwide police programme supported by the Home Office and led by the National Crime Agency, working with regional and local policing. It aims to intervene where young people are at risk of committing, or being drawn into, low level cyber-dependent offences and divert them to a more positive use of their skills and interests. Cyber Choices does not currently cover 'cyber-enabled' crime such as fraud, purchasing of illegal drugs on-line and child sexual abuse and exploitation, nor other areas of concern such as on-line bullying or general online safety.

9.5 Recording online safety incidents

The College maintains a log of online safety incidents, which is monitored by the DSL. The reporting of online safety incidents should include the following data:

- (a) Name of person reporting the incident
- (b) Date and time of incident
- (c) Date reported
- (d) Names of people involved
- (e) Location and device details
- (f) Details of incident, including evidence where possible
- (g) Clarification of the risk or breach – e.g. does it relate to safeguarding, bullying, inappropriate content, sexting, data protection, copyright infringement...etc.? Use the 4 C's categorisation as described in 8.7.2.
- (h) Initial action taken and current status

- 9.6 Once investigated, a record of the resolution of the incident, and actions taken as a result, must be maintained. Such records should be readily available for inspection during governance visits.
- 9.7 The information created in connection with this policy may contain personal data. The College's use of this personal data will be in accordance with Abbey DLD Colleges' data protection and retention policies. Data in the online safety log will be processed in line with Abbey DLD Colleges' Privacy Notice, which is available on request or can be accessed [here](#).

10 Education

- 10.1 The safe use of technology is integral to the College's curriculum. Governors ensure students are educated in an age appropriate manner about the importance of safe and responsible use of technology, including the internet, social media, AI and mobile electronic devices (see the College's curriculum policy). The education will be tailored to the specific needs and vulnerabilities of individual children, including those who with special education needs or disabilities and those who are victims of abuse. It is understood that children with specific needs can face additional safeguarding challenges both in-person and online. Governors recognise the barriers, including cognitive understanding.
- 10.2 We believe that the internet and the constantly evolving technologies and devices to which children have access can be tools that enrich their lives. We therefore teach them to view technology and new media positively whilst simultaneously protecting themselves.
- 10.3 The safe use of technology is a focus in all areas of the curriculum and teacher training, and key safety messages are reinforced as part of assemblies and tutorial / pastoral activities/PSHEE, teaching students:
- 10.3.1 about the risks associated with using the technology and how to protect themselves and their peers from potential risks;
 - 10.3.2 about the importance of identifying, addressing and reporting inappropriate behaviour, whether on or offline, and the risks of downplaying such behaviour as, for example, "*banter*" or "*just boys being boys*";
 - 10.3.3 to be critically aware of content they access online and guided to validate accuracy of information;
 - 10.3.4 how to recognise suspicious, bullying or extremist behaviour;
 - 10.3.5 the definition of cyberbullying, its effects on the victim and how to treat each other's online identities with respect;
 - 10.3.6 the consequences of negative online behaviour;
 - 10.3.7 how to report cyberbullying and / or incidents that make students feel uncomfortable or under threat and how the College will deal with those who behave badly; and
 - 10.3.8 how to respond to harmful online challenges and hoaxes.
- 10.4 Students are also taught about the risks associated with all forms of abuse, including physical abuse and sexual violence and sexual harassment which may include an online element.

- 10.5 Those parts of the curriculum which deal with the safe use of technology are reviewed on a regular basis to ensure their relevance.
- 10.6 The College's acceptable use policy for students sets out the College rules regarding the use of technology including internet, email, social media and mobile electronic devices, helping students to protect themselves and others when using technology. Students are reminded of the importance of this policy on a regular basis.

- 10.7.11 [CEOP Safety Centre](#)
- 11 **Training**
- 11.1 **Staff**
- 11.1.1 The College provides training on the safe use of technology to staff (online safety as part of required safeguarding training and child protection training) so that they are aware of how to protect students and themselves from the risks of using technology and to deal appropriately with incidents involving the use of technology when they occur. Training is regularly updated and staff should receive child protection and safeguarding updates through meetings and emails, as required and at least annually, to provide them with the knowledge to effectively safeguard children.
- 11.1.2 Induction training for new staff includes training on the College's online safety strategy including this policy, the staff code of conduct, staff IT acceptable use policy and social media policy.
- 11.1.3 Ongoing staff development training includes training on technology safety together with specific safeguarding issues such as sharing nudes and semi-nudes images and or videos, cyberbullying, radicalisation and dealing with harmful online challenges and online hoaxes. Updates on online safety issues are shared as required and at least annually via emails, and staff meetings.
- 11.1.4 Where students wish to report a safeguarding concern, all staff are taught to reassure victims that they are being taken seriously and that they will be supported

and kept safe. Staff are aware of the importance of their role in dealing with safeguarding and wellbeing issues, including those involving the use of technology, and understand that a victim should never be given the impression that they are creating a problem by reporting abuse, including sexual violence or sexual harassment, and nor should they ever be made to feel ashamed for making a report.

- 11.1.5 Where safeguarding incidents involve an online element, such as youth produced sexual imagery, staff will not view or forward sexual imagery reported to them and will follow the College's policy on sharing nudes and semi-nude images and videos as set out in Appendix 1 of the College's Safeguarding and Child Protection Policy and Procedures and [Searching, screening and confiscation: advice for Colleges](#) (DfE, 2023). In certain cases, it may be appropriate for an authorised member of staff to confiscate the student's device to preserve any evidence and hand it to the police for inspection.
- 11.1.6 All staff are encouraged to adopt and maintain an attitude of 'it could happen here' in relation to sexual violence, sexual harassment and child-on-child abuse and to address inappropriate behaviours (even where such behaviour appears relatively innocuous) as this can be an important means of intervention to help prevent problematic, abusive and/or violent behaviour in the future. It should be made clear there is a zero-tolerance approach to sexual violence and sexual harassment. It is understood that even if there are no reports, it does not mean it is not happening, it may be that it is not being reported.
- 11.1.7 Staff are trained to look out for potential patterns of concerning, problematic or inappropriate behaviour and, where a pattern is identified, the College will decide on an appropriate course of action to take. Consideration will also be given as to whether there are wider cultural issues within the College that facilitated the occurrence of the inappropriate behaviour and, where appropriate, extra teaching time and/or staff training will be delivered to minimise the risk of it happening again.
- 11.1.8 Staff also receive data protection training on induction and at regular intervals afterwards.
- 11.1.9 The frequency, level and focus of all such training will depend on individual roles and requirements and will be provided as part of the College's overarching approach to safeguarding.

11.1.11 The Cambridgeshire and Peterborough safeguarding children partnership has produced guidance on online safety which is available here: [Online Safeguarding Strategy 2021 – 2023 | Cambridgeshire and Peterborough Safeguarding Partnership Board \(safeguardingcambspeterborough.org.uk\)](#)

11.2 Parents

11.2.1 We direct parents towards on-line resources which can help parents to take preventative action which will promote E-safety, and help them to identify risk-indicators of potentially problematic behaviour. We share up to date information with parents via email support strategies for staying safe online.

11.2.2 The College will communicate with parents regarding the filtering and monitoring systems in place, what children are asked to do online (including the websites used) and who (if anyone) from College they will interact with online. Regular governance visits review the effectiveness of filtering and monitoring.

11.2.3 Parents are encouraged to read the acceptable use policy for students with their son / daughter to ensure that it is fully understood.

12 Risk assessment

- 12.1 Where a concern about a student's welfare is identified, the risks to that student's welfare will be assessed and appropriate action will be taken to reduce the risks identified.
- 12.2 The format of risk assessment may vary and may be included as part of the College's overall response to a welfare issue, including the use of individual student welfare plans (such as behaviour, healthcare and education plans, as appropriate). Regardless of the form used, the College's approach to promoting student welfare will be systematic and student focused.
- 12.3 The Principal has overall responsibility for ensuring that matters which affect student welfare are adequately risk assessed and for ensuring that the relevant findings are implemented, monitored and evaluated.

Day to day responsibility to carry out risk assessments under this policy will be delegated to the DSL and deputy DSLs who have been properly trained in identifying and managing risks.

13. Examining Electronic Devices

- 13.1 The headteacher, and any member of staff authorised to do so by the head teacher behaviour policy – adapt to e.g. specify which staff are authorised], can carry out a search and confiscate any electronic device that they have reasonable grounds for suspecting:

- Poses a risk to staff or pupils, and/or
- Is identified in the school rules as a banned item for which a search can be carried out, and/or
- Is evidence in relation to an offence

- 13.2 Before a search, if the authorised staff member is satisfied that they have reasonable grounds for suspecting any of the above, they will also:

- Make an assessment of how urgent the search is, and consider the risk to other pupils and staff. If the search is not urgent, they will seek advice from [the headteacher / DSL / appropriate staff member]
 - Explain to the student why they are being searched, and how the search will happen; and give them the opportunity to ask questions about it
 - Seek the student's co-operation
- 13.3 Authorised staff members may examine, and in exceptional circumstances erase, any data or files on an electronic device that they have confiscated where they believe there is a 'good reason' to do so.
- 13.4 When deciding whether there is a 'good reason' to examine data or files on an electronic device, the staff member should reasonably suspect that the device has, or could be used to:
- Cause harm, and/or
 - Undermine the safe environment of the school or disrupt teaching, and/or
 - Commit an offence
- 13.5 If inappropriate material is found on the device, it is up to the DSL/ Principal/ other SLT to decide on a suitable response. If there are images, data or files on the device that staff reasonably suspect are likely to put a person at risk, they will first consider the appropriate safeguarding response.
- 13.6 When deciding whether there is a good reason to erase data or files from a device, staff members will consider if the material may constitute evidence relating to a suspected offence. In these instances, they will not delete the material, and the device will be handed to the police as soon as reasonably practicable. If the material is not suspected to be evidence in relation to an offence, staff members may delete it if:
- They reasonably suspect that its continued existence is likely to cause harm to any person, and/or
 - The student and/or the parent/carer refuses to delete the material themselves
- 13.7 If a staff member suspects a device may contain an indecent image of a child (also known as a nude or semi-nude image), they will:
- Not view the image
 - Confiscate the device and report the incident to the DSL (or equivalent) immediately, who will decide what to do next. The DSL will make the decision in line with the DfE's latest guidance on screening, searching and confiscation and the UK Council for Internet Safety (UKCIS) guidance on sharing nudes and semi-nudes: advice for education settings working with children and young people
- 13.8 Any searching of pupils will be carried out in line with:
- The DfE's latest guidance on searching, screening and confiscation
 - UKCIS guidance on sharing nudes and semi-nudes: advice for education settings working with children and young people

13.9 Our behaviour policy / searches and confiscation policy

Any complaints about searching for or deleting inappropriate images or files on students' electronic devices will be dealt with through the school complaints procedure.

14. Artificial Intelligence

Generative AI tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT and Google Gemini.

Abbey College Cambridge recognises that AI has many uses to help pupils learn, but may also have the potential to be used to bully others. For example, in the form of 'deepfakes', where AI is used to create images, audio or video hoaxes that look real. This includes deepfake pornography: pornographic content created using AI to include someone's likeness.

Abbey College Cambridge will treat any use of AI to bully pupils very seriously, in line with our behaviour and anti-bullying policies.

Staff should be aware of the risks of using AI tools while they are still being developed and should carry out a risk assessment where new AI tools are being used by the college, and where existing AI tools are used in cases which may pose a risk to all individuals that may be affected by them, including, but not limited to, pupils and staff.
